North Brunswick – Today, JNESO Executive Director Douglas A. Placa released the following statement in response to the NJ Department of Health’s Hospital Financial Transparency Report:

“At a time when many of New Jersey’s hospitals are struggling and when more for-profit entities are providing healthcare, it is critically important that the state ensure that financial transparency is required of all of these facilities. JNESO has long advocated for a level playing field among for-profit and not-for-profit hospitals, and will continue to do so in the foreseeable future. The true test of these recommendations will be in the Administration’s implementation, and JNESO will continue to advocate for full transparency throughout that process.”
